elōs™

effective, gentle & safe hair removal

Say goodbye to unwanted hair growth on all body areas including: upper lip, cheeks, chin, neck, breasts, stomach, arms, shoulders, bikini area, legs and back.

We're proud to offer elōs, the first and only technology that uses combined energies to effectively and gently remove hair of many colors and types from all skin tones. elōs is truly the next generation of safe and effective hair removal technology. Achieving beautiful, silky smooth skin is now easier than ever.

Skin before elōs hair removal treatments.

Skin after elōs hair removal treatments.

hair removal treatments

Gently removes hair from even sensitive spots such as underarms and bikini area.

Safely achieve permanent and effective reduction of most hair colors on all skin types.

How does hair removal with elōs work?

Hair follicles are precisely targeted and destroyed using the revolutionary elōs combination of bi-polar radio frequency and light energies.

Is hair removal with elōs right for me?

Both men and women can achieve permanent hair reduction on almost all body areas. Only elōs is proven to remove lighter colored hair, on all skin tones. To achieve a successful outcome on lighter hair colors, more treatments may be needed compared to darker hair colors.

When can I expect to see results?

Hair growth is reduced after each treatment. The number of treatments required will be based on your hair color and type, body area, and skin tone.

Does it hurt?

Cooling of the skin surface as well as constant measurement of the skin's resistance ensures safety and comfort during treatment. This is a no-downtime procedure. Many patients return to normal activities immediately after treatment.

How much does it cost?

Treatment costs vary. Schedule a personalized consultation for more details.
